Helping Simpson County Businesses During COVID-19

The Simpson County Extension Service webpage will serve as a platform for Simpson County business assistance during COVID-19 safety measures. Recent business restrictions and the nature of the current situation have placed a tremendous hardship on small businesses that will likely increase in the near future. This webpage will serve as a central location for small businesses to house funding information that can be promoted throughout the community.

Once a user accesses this page, they can choose to support a business that is listed by clicking on their logo/icon. This will link the user directly to the business's preferred location. The site may take customers to a menu that allows a person to purchase food via grub hub. It may also be an online method to purchase gift cards, shop or make donations. Some businesses may choose to link customers directly to paypal, venmo, apple pay, etc. This would completely be the preference of the business.

The objective is to provide immediate cash flow for Simpson County businesses through a web based system. We anticipate less and less social interaction in the near future. Therefore, web based applications will be increasingly important in the immediate future. Any business within Simpson County can choose to be listed. There is no cost associated with being listed on this site. We would simply like to provide a central location that people can go to help their neighbors, friends and local Simpson Countians through this challenging situation.

Business Name: _____

I, _____, give the Simpson County Extension Service permission to use my business logo to serve as an icon on the Simpson County Extension Community & Economic Development webpage. The logo will link users to my preferred means of communication/payment for my business.

*Electronic signatures will be accepted and the form can be emailed to simpson.ext@uky.edu along with your business logo and/or preferred art and URL.
